

ROBERTSONS
Orkney Ltd.

Your Invitation to see Beef Mech-fiber® Mixers in Action - more from less!

Ever increasing feed costs, reduced silage stocks; whatever your position come along and find out from beef farmer Donald Budge on what he has to say about delivering more from less and managing 'physical nutrition' when it comes to feeding and finishing 'Heavy Stores.' You've nothing to lose, everything to gain!

Venue: Brae-Edge Farm, Murkle, Nr Thurso, Caithness, Highlands
(By kind permission of Donald Budge & family)
On: Thursday 8th December
Time: 11:00a.m. Start - Finishing approx 1:30p.m.

DEMOS' & DISSUCUSSIONS ON THE DAY - 'Beef Feeding Solutions'

1

Suckler Cow rations mixed in the NEW Mech-fiber® 300 mixer for a high-fibre low energy diet. Chops straw to the correct length without over processing to maintain rumen fill: helping reduces cows winter silage requirements by up to 20%.

2

Growing and finishing rations mixed in the MF300, where 'physical nutrition' can deliver an extra £47/head from local co-products, silages and hi-fiber sources to produce the all important 'fluffy' open production ration: Small mixes down to 500 Kg.

3

Introducing Keenan's PACE® mixing technology designed to manage the physical and chemical elements of a ration, and also includes farmer feedback on financial performance levels; worth extra 28p/animal/day.

See Keenan's NEW mixing technology in action; and hear the impact 'physical nutrition' is having on performance and feeding costs on Donald's 150 Heavy Finishers this year.

Light refreshments available on the day; for more information please call me on 07787 571528. We look forward to seeing you on the day. Direction map and location details on the reverse.

Yours sincerely,

Robbie Morton
